AFL SEASON

TICKETING INFORMATION

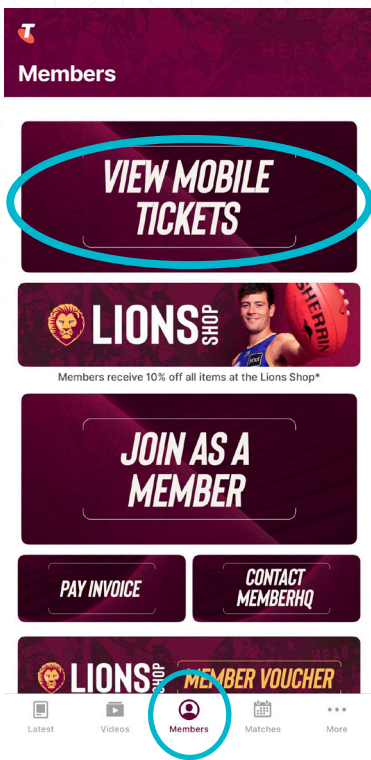

DIGITAL TICKETING REQUIREMENT FOR AFL

The AFL operate a 100% digital ticketing requirement during the AFL season at The Gabba. All Members and guests attending the Qld Cricketers' Club during the AFL season, must present a digital barcode for scanning at the entrance to the Club when attending on a match day.

These are issued by **QCC**, via **Ticketmaster**, 24 - 48 hours prior to the host or Member who has secured the tickets. You will receive an email from the **Brisbane Lions** with the subject "**Queensland Cricketers' Club Just Sent You xx Brisbane Lions Tickets**" These must be accepted and downloaded to your smartphone, to all be scanned upon arrival, or transferred to each guest, or to the host who is attending prior to your or their arrival at the Club. **Paper tickets** are then collected on the door as per usual QCC entry practices, which will outline your final row & seat allocation. The digital barcodes are "**Entry Only**" tickets, and do not display a valid row or seat number.

The easiest way to access your digital tickets is via your smartphone and via the **Brisbane Lions** app. Download the app to your phone and create a **My Lions** account (you **must** create either a My Lions or Ticketmaster account in order to access your Lions tickets throughout the season). Once you are in the app, follow the steps on the next page to access the barcodes for scanning. To avoid delays upon arrival, it is advised to save the tickets to your Apple or Google Wallet as the wi-fi on match days can be sporadic. Screenshots will **NOT** work.

Please peruse the step by step guide to accessing your tickets once in the Brisbane Lions app on the following page.

STEP 1:

Once in the Brisbane Lions app and once you have logged in, click on **"Members"** across the bottom menu bar. Then, select **"Mobile Tickets"** from the items listed.

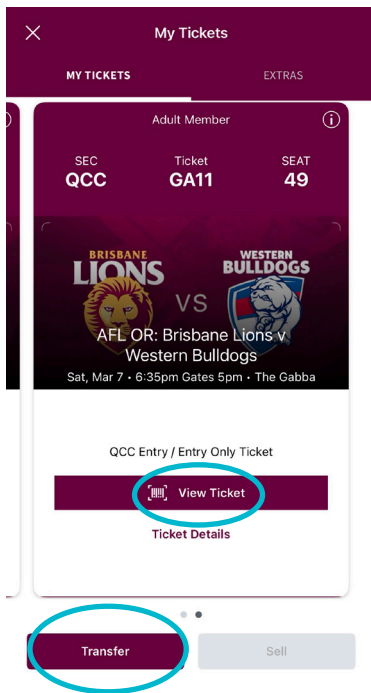

STEP 2:

Select the match day you have purchased tickets for from the list presented and click "View Tickets".

STEP 3:

All the tickets you have been sent or have accepted will now be visible. Click **"View Ticket"** to see the barcode. If you wish, you can **"Transfer"** your tickets to your host, or to each guest attending with you. **Alternatively**, you can maintain all tickets in your app or phone wallet, however you must scan all guests in when you and they arrive.

STEP 4:

If you are at the entrance to the Club, you will need to **"View Barcode"** to present for scanning. Alternatively, save the ticket to your Apple or Google wallet ahead of your arrival for the most efficient entry to the Club and stadium. The **"seat"** does not correlate to an actual seat, this is an Entry Only ticket to the Club. Seating allocation is collected at the door.
